

# MULTI-PURPOSE ELECTRIC IMPACTTOOLS

for nut-running, drilling, reaming and tapping

Ingersoll-Rand Electric Impacttools save you time and money on dozens of expensive "hand operations." See Ingersoll-Rand Form 5191 for complete information.

## Size 2U (Heavy Duty), 3/8" Drive

Actual case histories show that this real multi-purpose Mighty-Mite pays for itself in 90 days.

## Size 4U-SD (Standard Duty), 1/2" Drive.....

Makes the toughest jobs easy and adds up to 25% to your service capacity. Cuts nut-running time by 90%.

## NEW Size 5U-HD (Heavy Duty), 1/2" Drive

Packs extra power and greater speed for the big and little jobs alike. Lighter and easier to use, in spite of increased power.

## Size 5UT (Heavy Duty), 1/2" Drive.....

Precision torque control with automatic shut-off helps you handle even the toughest nuts on high compression engines, quickly and safely.

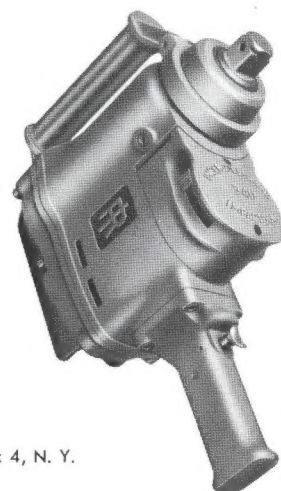

## Size 8U (Heavy Duty), 5/8" Drive

Built for the larger jobs on passenger cars, and for a multitude of jobs on trucks, this is the most powerful pistol grip electric Impacttool.

## Size 34U (Heavy Duty), 1" Drive .....

The largest electric Impacttool on the market is ideal for spring U-bolt and truck tire work. Takes the sweat out of the toughest job.

## TIMESAVING, LABOR-AIDING AIR TOOLS

Ingersoll-Rand Air Impacttools and the Air IMPACutter are light, compact and powerful—designed especially to save time in auto service shops—and to cut costs.

### 1 **NEW** Size MC121 IMPACutter

The modern way to cut or drive out bolts or rivets, scrape undercoating and paint, cut or split sheet metal, mufflers and tail pipes. Built for years of dependable service, this rugged new tool can save you up to 90% of the time formerly required for the roughest body shop operations. It's also hard to beat for dismantling wrecks or cutting up junk cars.

### 2 Size 402 Air Impacttool, $\frac{3}{8}$ " Drive

The smallest pistol grip power wrench on the market and one of the most useful. Calibrated so you can get the power you want for any job.

### 3 Size 403 Air Impacttool, $\frac{1}{2}$ " Drive

Weighs only 5 lbs., but handles all but the largest nuts on passenger cars. Compactly designed for close-quarter jobs and to reduce fatigue.

### 4 Size 407 Air Impacttool, $\frac{5}{8}$ " Drive

Thousands of powerful rotary blows per minute quickly loosen the most stubborn frozen nuts and bolts.

### 5 Size 310 Air Impacttool, $\frac{3}{4}$ " Drive

Top power in the line of pistol grip Impacttools, it comes into play whenever the going gets rough.

### 6 Size 334 Air Impacttool, 1" Drive

Designed specifically for Budd wheel and other tire work, it saves time and quickly pays for itself.

### 7 Size 434 Air Impacttool, 1" Drive

Over 10" shorter, 9 lbs. lighter, gives 25% more power and 350% faster rundown.
